Highlights

Integrated milk frother

The unique patented milk frother of the coffeemaker produces steamed milk for a distinguished frothy creamy top. Simply pour fresh milk into the milk container, push the button and experience an easy, convenient and perfectly prepared frothed milk drinks!

One-button operation

With this coffee pod machine you can easily prepare one or two cups of coffee with the simple one button operation.

Decalcification indicator

The Philips coffee machine will remind you when to descale your appliance. Regular descaling ensures the best taste of your coffee and prevents limescale from tap water.

Delicious cappuccino

Enjoy your delicious The POD six cappuccino, a rich combination of coffee and fresh milk. Each cup is crowned with a creamy foam layer, just like the ones you can enjoy in coffee bars!

Variety of blends and flavors

The POD six offers you a large variety of coffee blends and flavors, each with its own distinctive taste to fit your personal preference.
